Hi [REDACTED] #22 is not a painting, If it is a charcoal drawing it is amazingly life like, It looks like a black & white photo made to look like a drawing what ever it is it is very realistic. I think it came to the house in 1996 or 1997 I remember GM looking at it and telling me put it down stairs in the storage room. I only seen it once before. It's on of the larger pictures . I hope this helps .Rich

JE is wondering what the pic labeling 22 is.. is it a painting, a drawing? He doesn't remember it at all!
