Subject: Lights

I told brice to have the big lights on the hill lit last time I did night approaches in s76, tonight was a black night, no moon, Don't know if they are stored for hurricanes, but we really need them for our saftey!

Thx

Larry

Larry morrison is checking on GD Savanaha for a fix on GII,

Larry is doing a small base inspection on Boeing tomorrow, and will be completed Sunday as a back up plane if needed,
