Subject: Inverter update

Jeffrey,

The inverters arrive at 3pm via american airlines air cargo, I should have in my possession by 5pm once it clears Customs.

If all goes well I should start installing at that time,

Ps: [REDACTED] and [REDACTED] are coming to st thomas on same flight as inverters, since [REDACTED] had a long weekend with school,.they will leave Monday afternoon back home.

Is there any chance you may know if you are staying past wednesday? I know it depends on gaston weather, it appears to be reforming again,

I have my first colonoscopy scheduled for wed, and I could re-schedule if we decide to depart.

Thank you,

Larry
