Subject: Wx update

Jeffrey,
Weather update for LSJ:

Hurricane Earl has pasted St. Thomas, the next tropical storm is Fiona, traveling fast at 23 kts, this will pass north of St. Thomas and winds are 40 to 50 kts at this time. Fiona should be clear of St. Thomas area by Thursday morning. Travel Friday morning looks good at this time.

The next Tropical depression is west of the African coast, to far away to judge its impact and tract.
thanks,
Larry
