Here is the Barge information for the General and the commander

I will send you the work up for Big N Tomorrow

Jeffrey,

According to Brice the barge company requires the trees to be on flat racks

Please see below what each barge can carry in flat racks (keeping a note that each flat rack can carry 8 to 10 trees)

That said if we had the general we can get anywhere from 60 to 70 trees in one trip and the commander can get 200 trees per trip.

this is what we know now

General can fit 6 to 7 Flat racks

Commander can fit 21 x 40' flat racks

a message has been left with Jose Blanco in PR to confirm the number of trees per flat rack
will let you know as soon as poss.

brice

Would like to know how many trees we can get on the commander and the general?

Thank you
