From my girl today ;

"**Date:** 20-May-2010 (10 hours ago)

You know , nadia, I have left school at 17 and i am not educated at all . My ex girl friend said that my brain was between my legs ... I love to make love , to be loved , the pleasure is like a wave for me , it breaks all limits and I need that ! I think I was made for love , or may be I am nymphomaniac ?"

...I thought it was funny. Refreshing honesty
