Hey!

I'm alive and well. London is great. Everyone is sweet and helpful. The show looks fantastic, if a bit busy. The gallery space is really interesting, in the middle of a real industrial park. Peckam is a cool place- I think you would love it. Really beautiful old houses and tree lined streets and Chinatown like markets on the main row, and a park in the middle. got me thinking... seriously... it is so quite and nice and cheap! They framed my prints and they look fantastic... blown away. Excited to DJ tonight, the club is really neat and the guys who run it great!

Thinking of you two and hope you are well, lots of love!!!!!!
