i was talking to the italian cheater on facebook messanger, he was saying that he was missing having sex with me, then i told him that i take it in the ass now - he said that he would never forgive me for not starting it with him. that i m a bad person (said a guy that was cheating on me with 3 girls) and he is begging me to come to his boat to go to sardegna, motecarlo, etc! ' he was accusing me before of sending stupid letters to his girlfriend (which i never did of course) i tried to prove it wasnt me - he said "this story is forgotten, i dont care. but how could you do it in the ass without me?!"

and he doesnt know yet about new blows!

I miss you and your lessons! You are the best!
