Jeff,

Isabel shared with me the nice note of support you wrote. I want you to know I really appreciated it. And, the same goes true for you too. You're Great, and I am a Big admirer of what you do, and how you think...

Just remember what Einstein said about Russell's troubles with CCNY in the 40s, "Great Minds have always encountered violent opposition from mediocre minds."

I would look forward to putting together a fun time for you with non-mediocre minds!

Michael Douglas, who is staying with me over the weekend, is a brilliant theoretical physicist. I have known him well since 1982. He was part of the inner group of three (including myself) that spent so much time with Feynman. Mike was there for most of it...

We will call you on Sunday.
