**Subject:** note to robert

Robert, you've clearly built exquisite properties, I'm wondering how maybe we can modify the communication process here, so that I can help trouble shoot the method in which we do things and try and avoid pitfalls..

Jeffrey's very open to being asked questions, you can bug him with that, he'll always take your call. Maybe we need more question time before setting about with firm ideas.

Go from general to more specific, just as you talked about on the call today. Here are the placement of the doors, where do you like yours,, type conversation.. this might help ?
