**Subject:** PR palm trees

Jeffrey,

The guy from that farm gave me bad information the 1<sup>st</sup> time I spoke with him (his English is not that good) apparently they have 12000 tress not 1200 and the farm is 300 acres large.

The largest trees they have of the Green Malayan palms is 10 to 14 feet and they have 4000 of them.

The price is \$ 200 per tree and the more we purchase the less cost per tree. I have the location of the farm so if your interested in someone looking at them please let me know who you would like to send.

Thank you

Emad Hanna
