**Subject:** Story for the day

The copilot today was very difficult. He only had 70hours total and he kept telling me what to do the whole time. Finally during a landing when he said 'slow down 5knots', I had to roll my eyes and I just ignore him. He caught it and said 'Aww, I am not telling you what to do,I am sure you can do it ' and -- he patted my shoulder the way you pat my head..  
30 feet above ground I wanted to throw him out the window but I had to land it first. Smoothly! You would have liked watching this. I was smiling when he did it, thinking this is something you would find funny on short final :)

Good night
