**Subject:** S76 flight

Jeffrey,  
Except for the late start today, the helicopter was great, total flight time was 7+33min,,,we flew the whole trip at 2500 feet with a true air speed of 150ts,,we had 10kts of tail wind the first half of trip that gave us a nice ground speed of 160+kts,,the only thing that didn't work was wifi, but that may be due to me not fully activating the router. I will address that in the morning. [REDACTED] did a nice job working the panel and radios.  
Thanks  
Larry
