Hi Lawrence,

How are you? I hope everything is well. My Professor at Bowdoin sent me an email about a two week gravitational wave astronomy summer school program in Texas, and I was wondering if you have heard of it and what you think about it? I will be also be doing research for my Honors Project this summer, and am curious if you think I should attend the program as well. At the moment my inclination is to go. Here is the link: <http://phys.utb.edu/outreach/gwasummer2010/>

Thanks and all the best,  
Alexa
