Subject: G2

Jeffrey,
Galaxy line service bumped a G4 tail into the tail of our G2 this morning.
It only broke our static wick on the elevator, never contacted the elevator! I am
at General Dynamics now inspecting further, no damage, all is good, installing
static wick now.,,
I requested a lower price for my fuel up load from Galaxy for tomorrows trip, he
gave me an additional .25 cents off, so will save \$1,000 dollars on our trip
tomorrow, (I'm taking round trip fuel) since my fuel price is \$1.00 + more per
gallon in St. Thomas.
Thx
Larry
