OK so here is the floorplan for the "living room" as you see it can be really closed in and open if you want, than the plan and elevations for the tub and a little rendering of the area, please disregard the color it signifies only that the molded cement tub corner walls and dome would be tinted, the circles you see in the dome are the Hammam lights, they are amber colored glass and the light comes through filtered and colored.

All are ideas to be changed massaged and molded....

The booster for which I thank you much is not reaching in my office!!

Unreal.
