Subject: St. Croix flight training

Jeffrey,

I spoke to Eric, a flight instructor at Bohlke International Flight School,

They have a Diamond DA 40, G1000 Garmin cockpit, 4 passenger aircraft

\$200.00 solo,,,insurance is double in St. Croix due to all water operation.

They also have a 1981 Beechcraft Dutchess (Twin engine) has Garmin 530 and Garmin 430 GPS/moving map, for \$350.00 per hour, she will need 10 hours with an instructor after that they will allow her to fly solo in that aircraft.

the Diamond DA-40 aircraft are new with only 600 hours.

NO TSA required since she has already completed.

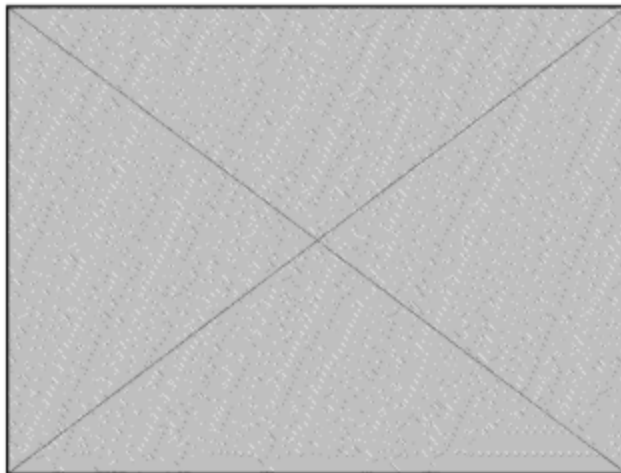

-They are willing to bring the aircraft to St. Thomas for her to use for a day or several days, the pilot would deliver the plane then take airline to St. Croix for convenience. Then pick up aircraft after she is done.

this is there web sight:
