The puppy is very sick. It has to stay alone in ICU overnight with an IV and the vets need to run a few tests tonight. She might need to stay for a few days depending what happens in the morning. There is also a chance she doesn't make it even with the treatment.

It costs 1600-2200\$ per 24hrs. Can I pay for it or not?

The place is called NYC veterinary specialists. www.nyc-vs.com
