**Subject:** Travel to LSJ

Dear Jeffrey,

JP Molyneux says he will be on LSJ Monday 22 March. I would like to travel to St. Thomas on Sunday, 21 March ( AA # 655 @ 6:55 am from JFK) and return Thursday, 25 March ( AA # 412 @ 12:05 pm ) to prepare for the Molyneux and Fancelli visit to the Island.

The Fancelli team already have the woodworking tools and equipment on the Island,( only a small strip of oak wood is needed below the picture window). STAIN and FINISHES are what the Fancelli finish team need to bring with them (along with sand paper), in accordance with their last visit and consultation with JP Molyneux and the samples he has recently provided.

Jeffrey, for your visit to be productive, I would think that JP Molyneux should have an opportunity to consult with the Fancelli finishers to produce samples for your review and approval, and then, additional finish samples as may be required. It's important that you and JP consult, in person, with the samples, in place, on the woodwork.

Best Regards, Doug
