Still waiting to hear on the buyer but in case he folds I need to get this closed. I think I can convince Sikorsky to give JE another 20K to close this week, and you can leave it at Keystone until you are ready.....Please ask him as a favor to me, it is causing a world of hurt for Chris and I am trying to fix the problem and have gone out on a limb telling them to give what JE was promised and I think it would close. Need an answer ASAP...trust me it will earn a great deal of gratitude which I know I can work to your advantage at AAG in the future.
