Jeffrey,  
looks like the warmest temperature 38 degrees is at 4pm today, and temps dropping at 7pm,,,,so I think wheels  
up 6pm or 6:30pm should be safe,,,they are forecasting temps at 6pm to be only 37 degrees, so it will be light  
rain, turning to light snow showers around 8pm as temperature starts to fall.  
thanks  
larry
