**Subject:** Dr. Kruger

The appt for Dr. Kruger along with blood work will be around \$5-600

There are 2 prescriptions. The Niaspan is 30 pills for \$141 (he has some samples in the office he said he would be happy to give) The other prescription (he did not want to give name) is \$210 for 20 pills (about \$11 a pill he said) Dr. Kruger just needs to know how many of each you need. He would like to know as soon as possible so he can be completely ready for you at 1:00.
