Title: Hello, I'm Siri!

Hello, Siri here.

Please [click here to verify that you are Jeff E.](#)

This verifies this email address belongs to you, and allows you to use all of my services.

Thank you!
Siri — your personal assistant

Why do you need to verify my email?

The Siri team takes your privacy very seriously. That is why we ask you to verify your email address before using the product. This prevents others from pretending to be you.

What if the link doesn't work?

Try pasting this into your web browser:
<https://prod.siri.com/verify?token=7796A416-B4DD-937D-1AAF-DDC8CAD9834E>

I didn't expect this email!

This message is sent when someone signs up for Siri using this address. If you do not recall doing this, please reply to this message and we'll take care of it

Please contact us at support@siri.com

What is Siri?

Siri is a personal assistant on your mobile phone. Siri can help you get things done while on the go, such as finding restaurants, movies, local events, maps, directions, phone numbers, and weather. You can ask Siri to do things using spoken input as well as tapping. You can even ask Siri, using voice, to send you a reminder you at a later time.
