I don't even know how to start...I was thinking a lot of what u wrote me the other day, and I was trying to find answers for myself first of all.

I have to admit, I just arrived here,it will take me a while to accomodate and get used with my new life here, specially becouse the past 3months I spent with him seeing him every day, every morning when I woke up. Indeed when I was there I had a purpose, I was fighting for something every day and I have to admit that now is a bit difficult even though is tough to really say it.

I miss him, I'm in love but I'm still the most important person in my life and I'm aware that I have to do my own life,my own future the same way he's doing back in London. What I'm trying to say is that it was easier when I had him near, I need the moral support, the confidence that he's giving me, specially that I feel for the first time in my life that he could be the one for me. Which, belive me is a difficult thing for me to achieve,I'm a very complicated and demanding person.

I want the best for me, I want to be happy and somehow in the future I want him to be in my life. Now is me myself and I, but at some point I wish I'll be able to say "us or we".

I'm very sure I'm not ready now, and I'm sure I want to fight to be the best! I just need the oportunity to afirm myself...

Do u understand me?

As a conclusion of what I said is not that I'm trying to excuse myself, I'm just trying to understand. I don't feel that he's ruling my thoughts, is a different feeling...

I hear in your voice that your boyfriend is once again ruling your thoughts. He is very lucky, you need to find a way that you can succeed in alignment with your priorities.
