Subject: Check out Stem Cell Treatment for Spinal Cord Injury, MS, Muscular Dystrophy

I have sent several patients to this clinic in DR and one friend had total kidney failure with Creatinine 7+ and got stem cell therapy intravenously and did not need a kidney transplant anymore and creatinine went down to 2 and he is 67 yrs old and now has more energy then me and you together so his wife who is 62 had the stem cell therapy just to keep up with him.

A friend of mine who does documentaries is doing one on Dr Rader and his patients and how they get better and younger.

Stem Cell Treatment for Spinal Cord Injury, MS, Muscular Dystrophy - Medra Inc.

Sincerely,

Steven Victor, M.D.
