Subject: visit to you

dear jeffrey

here is hoping this note finds you good in all respects

here is my suggestion

i fly down to palm beach friday a week from this friday, january 29th

since you are a morning person, i would take an early flight, hopefully spend from about 2 to 9 with, including some kind of food

i will then go to lauderdale lakes where my son and ex live

i can take cabs for both trips but am happy to enjoy the company of your driver if that makes sense

if you need to be busy during parts of this time, no problem, i have plenty of work i need done myself!

tell me if this makes sense to you--or this is not a good day or whatever

all the best

robert
