We received landing permission for Haiti,  
We plan to load the plane after our arrival on Wed, in STT, the return by 6pm Wed  
night, we are mainly taking doctor, and some medical supplies,

I will take several pictures of the Gulfstream while on the ramp in Haiti if you  
think that is appropriate?

Thanks,  
Larry

Larry,

Per our conversation yesterday we have a confirmed slot for N909JE on Jan  
27. The FAA assigned slot number is 1565 with Port Au Prince arrival at  
1845 Zulu and departure at 2045 Zulu. Your tail number will be your call  
sign. We will be prepared to load at the St. Thomas Jet Center as early  
as 1030 Atlantic; please advise as to your desired load time for pax and  
equipment. My cell is [REDACTED] and Carmen Partridge's (the head of  
the operation) is [REDACTED].
