Subject: [REDACTED] in Hospital

Jeffrey,

[REDACTED] is in the Hospital with severe depression.

She had not left my house in over two weeks and her mother took her and they are kept her overnight for psychiatric observation.

She complains of no future - having worked for you for 6 years and then you have abandoned her. She now wants to go back to school - which can start Jan 5. She must register today or tomorrow.

The trauma of your problems has been very severe on her.

She is crying and constantly talking about the old days "with the family" when she was happy.

She repeats the same story over and over again.

She tells me you promised her another \$50,000 and have not paid it. She will not ask or sue. It is up to you to bring it up.

My life and business is great. and I have no interest in you or your funds at any time now or the future. I have investors - private equity from the head of a major firm. I have plenty of money. I only care about [REDACTED] feelings.

She also needs dental care, and has been cut off from that. She is in pain in her mouth and you have done nothing. You have promised to interact with her and not done so.

Call [REDACTED] now and leave her a message. Do not tell her I e-mailed you. The initiative needs to come from you not me.

Tell her you want to send the money you promised and perhaps she can visit you in Palm Beach. I know you are confined to that state. I know [REDACTED] and others have visited you already and she is very unhappy about this.

Your actions have hurt many people.

It is time to repair what you have broken and keep your promises. .
