F,
I'm so ridiculously, insanely and absolutely happy to be here at 301! Arrived a few minutes ago. Heading down to a meeting at NYU shortly... Will be here all week. The apartment is great. I'm so grateful to be able to stay here!

I spent Thurs night/part of Friday in Boston. Dinner on Thursday night with Ed Boyden -- fascinating guy -- wet lab at MIT studying use of light and energy for neurological disorders. He's already spun out one company that looks like it could be quite successful and I'm sure others will follow. I mentioned you to him. Here's more info:

<http://syntheticneurobiology.org/>

Truly extraordinary guy....

Had lunch with Marc Hodosh, Mike Dubno and Gloria and Marvin on Friday. Great fun. Marvin, thank G-d, is looking well at this point. Gloria, too.

For your amusement:

Looks like I can join with John and Barnaby in late Feb to visit. Big yay!

Talk soon. Thanks again!
