Subject: I want one of your girls

thought that would get your attention

you always have a few that you hire for your own reasons: I want one as a
loaner

here is what I need her to do

I want to start grandview prep 1st grades in any city that has only expensive
private schools and shitty public school to choose from (NYC Chicago and
Washington for sure)

I want them to be one room, one teacher and maybe 12 kids paying maybe 12K; in
this way they could break even; I want them to be unisex
(because boys and girls have different interests); we will design a 1st grade
and then have a year to design a 2nd grade etc

there are certainly laws that have to followed, maybe licenses for day care
facilities, and god knows what else, in order to put 12 kids in a room all day

I need a girl who will research these issues for each locale and help decide
how we do it and where

got any extras?
