**Subject:** list of people for you

I am compiling a list of people that we should visit together. These people are good friends of mine so it is very easy to organize a meeting.

In addition to George Whitesides whom we already discussed:

Philip Rosedale - (a founder, ex-CEO/ and a current chairman of the Second Life) is my good friend. I am often mentioning a Second Life, NOT because I am suggesting your investment to Second Life (that would be a MISTAKE), but just learning what Second life achieved and where it failed. I think it is a gold mine of information.

Bruce Walker - a leading world expert on HIV and HCV viruses. He is a new power house at Harvard - He just raised 100M new institute in Boston - trans MIT - Harvard vaccine institute as well as 70M Institute in South Africa. He is leading Howard Hughes Investigator (attached is just a brief about him). Bruce is a leading expert on how immune system fights viruses and how viruses mutate and escape immune responses.

There are several others raising stars that I think you should meet. Will work on the list.

All best

Boris
