Jeffrey,

It appears George has another buyer for your S76, he is asking if your deal to except 12M and pay Him 100K commission is still valid? His email insinuates a 200k commission, he is smooth. The original deal was 100k to Reenstra for a quick sale, and buyer was paying 12M.

I received this email from
George below;

Just to confirm our deal. JE wants 11.9m for the ship. I will get paid above that...so we are on the up and up I am trying to push it to 12.1 but that is a stretch. I think the next C++ should simply be a clone of 750. Assume you got it in July/August (even they couldn't come up with excuses to delay) I think it will be late 12 before the D 's actually start to deliver.
