Jeffrey,  
Replaced surge valve for apu air, this corrected engine starting problem.

We have a broken cannon plug that arrives tomorrow for surge valve, 2 hours to change this item and we are finished.

Altimeter is being install now, price was only \$600 for repair of back lighting, it was good decision to send ours out for repair, compared to \$10,000 for exchange.

I will let you know when we completed and return to service tomorrow.

Thank you,

Larry
