Subject: Fwd: The emergence of China: New frontiers in outbound M&A

Another report came out today...

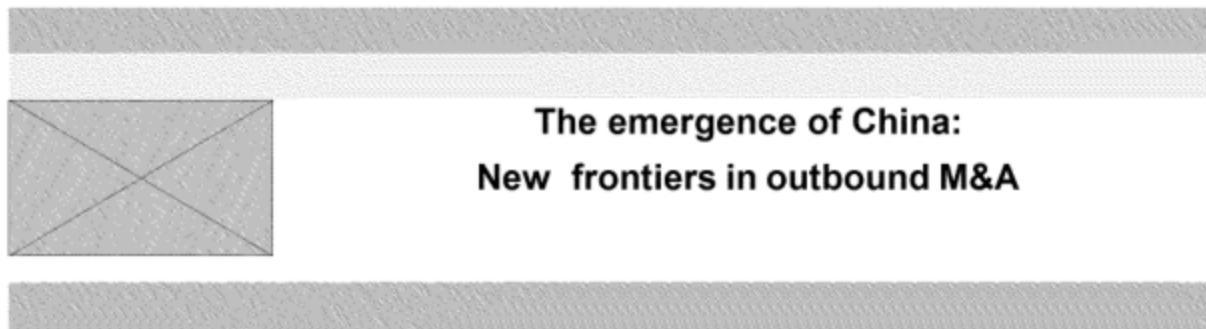

We can do this better than any bank because we are discreet, understand China and can bridge the cultures and behaviour patterns.

I am worried that we miss the train if we do not move soon...i await your instructions

The emergence of China: New frontiers in outbound M&A

mergermarket, in association with Deloitte's Global Chinese Services Group, has produced [The emergence of China: New frontiers in outbound M&A](#), a thought-leadership report which looks to fully illuminate potential Chinese acquirers on the ins-and-outs of purchasing foreign assets. The report aims to shed some light on other deal drivers as well as discuss any potential hurdles that Chinese firms are likely to encounter in the future.

China has truly stepped onto the global stage following the turmoil that afflicted the global financial system in the second half of last year, and nowhere is this more prevalent than in the regional outbound M&A market. We are delighted to present you with this comprehensive analysis of outbound activity in China and hope you enjoy reading the report.
