Hi Andrew

Further details on our last conversation. Do you currently have a corp that you would use for the acquisition? , or would you want to form a new llc, if the going public option is viable, maybe a corp makes more sense. (all the normal add- ons antil dilution,tag along drag along etc) - If you want to buy other agencies for paper , a higher valuation may be in our interest. , otherwise you might consider assuming debt (lc and irs) and putting up smaller amount of cash. 1.5-2m. With the economic crisis not yet in its springtime. there are many things to buy.

I shall be back in NY on Thursday and will speak with Megane. I don't know her enough to do it on the phone

Take care

Jean luc
