Subject: F1000 new product - please advice

Title: The Scientist

Dear Jeff,

We are always seeking new ways to develop useful and novel products to help those engaged in biomedical research. We are currently piloting a couple of new ideas relating to conference coverage, and would really value your feedback on whether our proposed services would be of benefit to a researcher such as yourself. We therefore ask if you could spare a couple of minutes of your time to help us by answering a brief survey about these ideas.

The survey contains only ten short questions and should take only five minutes to complete. Just go to: [Poster database survey](#)

(N.B. your responses are for our information only and will not be shared with any third parties.)

If you have other ideas of useful tools that we could develop alongside F1000, then please always feel free to [email us](#).

Many thanks for your help in advance!

Best Wishes,
The F1000 Team
