jeffrey

i am safely at the Hilton in jamaica

thank you for your hospitality

it was good to see you, and i was glad to see you surrounded by good people. jean-luc especially is a gem

i saw in your eyes and face a little of what you have been through but your mind seems stronger than ever; these discussions i enjoyed more than our others, you were more focussed and the argument went deeper and further

as for American Idol i shall see it the next time it is on

all best wishes

robert
