John,

Back in town.

My friend Jeffrey Epstein is interested in funding research in cyber- coding as it applies to encryption and cyber-security. He's having trouble finding out who is doing interesting work. I told him that you are the man. Also, he'll be surely be interested in a full report on Ronna Tannenbaum's recent wedding.

Can you give him a quick call. He's in Palm Beach.

Jeffrey Eptsein
