I just talked to Lee. He sounds very nice. He said we could use a Turbo :-) 182 with G1000 for training, do 2 2-3hr flights a day plus ground and be done in 10-14 days depending on the weather and how well I do.

His schedule is open this week and the next so he is ready to start.

He mentioned he would fly to the ranch in the mornings, we would do a ground lesson there and then go fly. He would drop me off in the afternoon and take the plane back to abq..

It sounds great.

Jeffrey,

I just spoke to John Bode, he would like to inspect the runway at the ranch, and feels it would be NO problem to operate from the runway at the ranch for her training,,,he recommends Lee, as her instructor,. John is calling Lee at this time to expect a call from [REDACTED] so they can introduce there selves to one another.

He also sends his best wishes to you,

thx,

Larry,
