Eva-

Stephen Daldry is going to email you a hugh thank you for getting him into see Dr. Smouha.

He does indeed have nerve damage and significat hearing loss and is getting hearing aids....which is a blessing for a man who earns a very good living wining Tonys directing musicals.

You have saved Billy Elliot's daddy's life and theater and film fans from Hollywood to New York to London are beyond greatful.

If you ever need house seats for "Billy Elliot"
let us know and Stephen's assitant Alex will help you.

You are an angle to help...
