Hi

[REDACTED] B (Asper through House of Canterbury, Inc) -3 pm- confirmed
[REDACTED] (James H Clark) - 4 pm -still tentative or, if not,
[REDACTED] (Swanson asks \$75M).

BTW, Please tell Jeffrey that the Ballinger house contract was revived after a difficult due diligence period. Buyer is Richard Kurtz, a NJ real estate developer who owns garden apt complexes). Rumor is that price is a low \$6 million number. Kurtz bought Mickey van Gerbig's old house on Via Vizcaya (lakefront) for \$7.1M and the lot next door (lakefront) for \$7M in 2006 with the idea of building one house on the two and is now suing his lawyers because of a zoning issue that makes it difficult to do so.
