ahhhh i thought u asked me something.
I'm good, though my skin is not that good... again I have problems now that I'm no longer taking antibiotics, and i went to the pharmacy and bought the roacutane treatment for 1 month but it says that is forbidden to take sun and during summer time is not a good idea to take it. well I'll see how I can protect from sun coz if it sees me it burns the spots where is the acnee and leaves brown marks... I'll try to find a solution...
In rest I'm enjoying the city that I love! I hope my boyfriend will take me to disneyland! :)
kisses
