Subject: Not sure which address you are at...

Apologies for the multiple emails...

I am wondering what is going on. I haven't heard anything since the focus group. Nor have I had any feedback about the focus group. Given JE's reservations about what I would bring to the team I am feeling a bit insecure. If you have anything to share please let me know.

I have compiled all the data into readable tables and will have some "findings" to everyone in a couple of days.

In the meantime there are two bills outstanding. One for May and one for June. I wonder if you could please give those your attention.

Re Stockstill – was Richard's deposition ever taken? Can I get a copy of it? If there is someone at the office I can call so you don't have to deal with this just let me know.

Thanks,
