Subject: update:

-Kitchen update: I am meeting Chris at 3:30pm at the house to program universal remote & IR unit, then move equipment into cabinet.

-Master Bedroom: White NHT speakers, same as kitchen should arrive today, I elected to go with a 90 watt per channel Integra AV receiver from Audio Advisors (Integra is the high line Onkyo reciever that has two zones, this will enable bathroom speakers to operate with a different source, If I used the old style A / B speakers switch, you would only have one source to play music in bathrooms,,

I will complete Master today at 3:30 also, including a universal remote for bedroom. I went into attic yesterday, trying to find where ceiling speaker wire ends are located, it seams they are not in corner by couch,,, Waiting for Doug to return my call on where he routed those wires,

-Pole cutting, making calls now

-I will get Dock for escalade today to.

thank you,

Larry
