Jeffrey, The handheld for the steam room will be installed on Monday morning, the actual hand held is interchangeable so if the one the plumber has available is not to your liking it can be changed. I will try to have the door closers installed by Tuesday, one hinge is changed out with a spring loaded hinge of the same size, it depends how many are in stock.
I will be traveling on Monday, Tuesday and Wednesday to take care of some of the issues of my mother including her burial in Philadelphia.

Regards, Doug
