Subject: LSJ office bulding

Dear JP, Pursuant to your visit to LSJ to review the installation of the paneling in the office building you were going to submit a sample and specification for the floor including the type of wood, the color of the stain and the type of finish. You were also going to submit a proposal from Fancelli for the additional work of changing two of the cabinet doors and adding panels to the entry doors to match the existing paneling. You were also asked to provide a sketch for the central ceiling frame so that corrections could be made. We have not received any of this information, when will you provide this information so that the room can be completed. The room is ready to have the floor installed. Regards, Doug
