And I you - Still in WPB? Maybe Manhattan? I imagine the Islands are not an option. Let's hang - if you're in FL: I may be flying down to Miami this week or next to check out the brand new Wertheim School of Medicine - they want me there as a founding faculty member - likely dual appts in Neuroscience and Music as well as Neurology...if you're in Manhattan: well, that's my home town, and mom'll be happy to see mexxx
