Subject: Escalade stereo upgrade

Jeffery,

I would install a separate system in Escalade, leaving the factory front door speakers to operate the dash board Navigation, XM and Radio functions.

Then install new upgraded coaxial speakers in rear doors and install a hidden subwoofer in the storage compartment located in the rear of suburban with the radio installed in ceiling, in place of the rear fold down DVD system, so you can operate and see the control head, the Alpine I selected is easy to operate and has a remote,.Ipod, and XM radio.

Alpine CDA-9886 radio \$262.46

Alpine Bluetooth adaptor \$134.96

Morel integra ovation 6.5 coal speakers \$479.96

Alpine 600 watt amp \$615.96

JL Audio 10" subwoofer \$220.96

Subwoofer grill \$12.76

Metra overhead install kit for ceiling \$22.46

Cables, wire connections \$175.00

Hush mat sound dampening blanket for sub enclosure \$28.78

installation \$300.00

Custom sub box fabricated to fit in hidden storage area \$225.00

enclosure material \$20.00

XM radio receiver \$107.00

XM cable \$26.00

Tax \$176.03

Total \$2,884.25

do you like this idea and system?

thanks,
Larry

CDA-9886
CD-R/-RW/MP3/AAC/WMA Receiver

CEA-2006 Power Rating

CEA-2006 Power Rating (4Ohm@14.4 V =1% THD+N),
S/N 80dBA (Ref: 1W into 4Ohm): 18W x 4

Price:
U.S. \$350.00

Availability: Now Available

Max Power Output: 50W x 4

Overview

- BioLite high-definition display
- Blue Illumination
- Rotary Encoder volume control
- Spanish language compatible
- Remote Control ready
- Steering wheel remote ready
- 24-Bit DSP with integrated DAC and 8x Oversampling
- 18W RMS/ 50W MAX x 4
- Power Pack Ready – upgrade to full 45Wx4 RMS (coming soon)
- 3 Preouts (4 Volts)
- IMPRINT PXA-H100 ready with Dual Input Capability (available March 08)
- iPod Control
- SAT Radio ready
- HD Radio Ready with Multicasting
- Bluetooth ready with AV profile
- Ready for USB mass storage devices
- Ai-NET bus system allows connection to HD Radio w/Multicasting, Satellite Radio, CD Changer, and Aux Input (using the KCA-121B)

This is an audiophile's ideal CD player solution for their car – premium quality sound Alpine delivers with modern convenience and control. Enjoy a cool blue illuminated, BioLite high definition display to view all your song information. The CDA-9886 is a robust Ai-NET head unit, so you can connect to a wide array of digital media sources and formats, including HD Radio™, XM® or SIRIS® satellite radio, Bluetooth connectivity for hands free calling, USB mass storage devices and CD changers, for a truly integrated in-car digital experience. (Separate adapters and/or subscriptions required) Whatever your choice the CDA-9886 will make all your sources sound great using it's high quality 24-Bit DSP to make sure you get every musical detail from all your favorite digital media. This unit also comes with an included remote control, for extra convenience.

Plug-in an iPod!

- Full Speed Connection for iPod using [KCE-422i](#) (*optional)
- Full Speed Connection for iPod makes hooking up your iPod a snap, with no ugly wires to clutter up your dash
- Full Speed AUX input using KCE-236B Full Speed to mini-jack cable
- QuickSearch
- Percentage Search
- Percentage Search lets you navigate quickly through your iPod library to find the song you want with no waiting
- Advanced HMI using the Rotary Encoder knob and Percentage Search makes it easy to find all your iPod content fast

The CDA-9886 is more than just a CD player, all 2008 Alpine head units are designed to work with your iPod – so you can enjoy all your favorites wherever the road takes you.

Full Speed Connection for iPod

Connect your iPod using the [KCE-422i](#) cable (optional), and you've got access to all your iPod music, right from your head unit. With Full Speed you get convenient control so you can scroll through all your Playlists, Artists, Albums, and Songs – and view all your song information right from the display on your head unit.

QuickSearch

Tons of music? Find it fast! With Alpine's exclusive QuickSearch technology, you'll be able to find what you want, the quickest and easiest way possible. With so many ways to listen to thousands of songs, now you can get super-fast access to artists, songs, albums, playlists, and radio stations. Large control buttons and a rotary encoder make it easy to scroll through all your sources, including your iPod, Radio stations and CD's. No interruptions, while you search, just let the Alpine play.

IMPRINT SOUND & Highly Expandable

- IMPRINT PXA-H100 ready with Dual Input Capability (available March 08)
- Power Pack Ready – upgrade to full 45Wx4 RMS
- 4 Volt Pre-Outs for Front, Rear, and Subwoofer channels w/Subwoofer Level control
- High-Pass Crossover (selectable 80/120/160Hz)
- Bass Center Frequency control with Q, Treble Center Frequency control

Step up to IMPRINT Sound. The CDA-9886 is IMPRINT ready – Just add an IMPRINT PXA-H100 audio processor for automatic sound tuning or powerful manual tuning options. Precise control and corrections yield enhanced sound so you can enjoy an optimal listening experience. IMPRINT automatically measures the entire listening area, capturing time domain and frequency response information from each listening location to process and improve the sound at every seat in your vehicle. The CDA-9886 also has 4 Volt RCA PreOuts providing the lowest noise floor for the discriminating sound enthusiast. With Dual Input capability you can even use the CDA-9886's built-in 18Wx4 RMS amplifier. Of course for a true power upgrade just add-on the KTP-445 Power Pack to instantly increase your head unit's power to a true 45Wx4 RMS, now we're talking about some serious sound!

Bluetooth® Hands-Free

- Make/Receive Phone Calls
- Audio/Video Streaming

Don't fuss with or fiddle with your phone and say goodbye to uncomfortable headsets and earpieces. Get the convenience of carrying phone conversations in your car*, hands-free!

This unit is Bluetooth ready so you can add a KCE-350BT adapter to pair up your cell phone with your head unit. Now make and take phone calls conveniently. View caller information including caller ID, missed, dialed, and received calls right from the head unit display. Use the microphone supplied with the KCE-350BT to speak, then listen through your car's speakers. You can even set up your cell phone/head unit to automatically answer your calls. With select compatible phones with streaming audio capability, you can listen to music stored on your phone and have it stream through your Alpine system.

Percentage Search

For especially big music libraries, Percentage Search function uses the preset buttons for quick jumps to specific parts of the list. Save yourself from scrolling through each song one by one, when you can just jump to a segment of your library with a touch of a button.

All Digital HD Radio

Alpine does HD. Get all the music and programming you want to hear in crystal-clear digital format (TUA-T500HD required). FM stations with CD-quality sound, AM stations with FM-quality sound, and virtually no distortion. Multicasting technology allows access to additional free music channels provided by most major radio stations. Enjoy more talk and music content from more stations.

Satellite Radio Ready

This unit is Satellite Radio Ready, (additional adapters and subscription required), so you can expand and enjoy a wider array of stations. Take your pick – with SIRIUS or XM, Alpine brings your choice of satellite radio inside your car. Add the KCA-SC100 interface for your portable SIRIUS Plug-n-Play device and get automatic Game Alert and Song Alert services, plus convenient program replay and pause functions. (compatible SIRIUS portable or SC-C1 required, features vary dependant on feature set of selected portable)
