**Subject:** AlterNet: Unscientific America: How Scientific Illiteracy Threatens our Future

This story has been forwarded to you from  
<http://www.alternet.org> by daross@mac.com

The issue is not just in your life-long interest in learning, but how you can embody the idea of the examined life as a non-proscriptive model for living -- not an issue of what you do, but what constitutes who you are.

Unscientific America: How Scientific Illiteracy Threatens our Future  
<http://www.alternet.org/environment/141679>

Science matters- to politics, the economy, and our future. But do Americans really understand and appreciate that?
