Subject: hi

Hi,

No rush, just when you want to be amused. Have Jen navigate a bit more through my facebook page. Other than the illusions seen in the video section and my unpublished illusion album, I think you will find interesting some of my photo albums where I discuss some of the giants of thought that I have worked with, etc., ie Feynman, Crick, Murray, Sagan, Gould, etc. Also, the Portraits from Memory albums, early and later years, will give you some indication of who I am and what brought me to this point. Tried to make it more interesting than your common ruck. You may be entertained by some of what I wrote...

I will be around today, if you want to discuss sculptures, etc.
